

Bendy Plywood

Platinum Bendy Ply is one of the best flexible plywood panels on the world market. The high performance, flexible characteristics of Platinum Bending Plywood give shape to almost any curved contour. The plywood flexes easily at a minimum radius of 200mm and even smaller radii when additional force is applied.

Our Platinum Bendy Plywoods are manufactured to a very high standard and supplied from a world leading quality plywood manufacturer based in Europe. Platinum bendable panels are manufactured from minimum two skins of Fromager exotic wood and a thin and flexible central core.

Bendy Premium Ply is PEFC certified (PEFC/14-35-00003) This ensures consumers that the origin is made of sustainable products.

Description

- This plywood is made from 100% Fromager
- The glue type is - Class 1 (EN 314-2)
- The emission = E1 as per EN 717-2
- B/BB Grade interior
- Weight 400 kg/m³

Properties

- Long & short grain
- Light weight
- Smooth surface face
- Very flexible
- Easy to machine

Applications / Uses

- The specifications have been designed to use in the marine industry for lightweight cabinetry.
- Furniture & cabinetry.
- Caravan and motor-home construction.
- Interior curved wall cladding.
- Internal columns
- Curved counters

Size and Thickness

Sheet size	2500 x 1220 Long / Short grain	
Thickness	5mm	9mm
Weight per sheet (Kg)	5	9.5
